MIDDLEBURY, VERMONT

Wednesday, September 14, 2016 7:30p.m.

7:30 p.m. Program: The New Statewide Property Parcel Mapping Program Is an Opportunity for YOUR TOWN to Improve/Create Your Parcel Data for little or no COST!

Overview: State Agencies need standardized, statewide parcel data in order to answer questions about the effectiveness of state programs, plan for transportation construction projects, and identify economic development opportunities (just to give a few examples). This need provides an opportunity for a win-win partnership between state government and towns in Vermont, because the state does NOT want to duplicate your town's parcel mapping efforts. How will this project affect your town?

Leslie Pelch, Property Parcel Mapping Program Manager, VT Center for Geographic Information, will join the Addison County Regional Planning Commission to discuss this program and how your town can participate. If anyone in your community is interested in learning about how to access funds to create new digital parcel mapping for your town, please have them join us!
